Risk Assessment	R150 R20 to affiliate and R130 to SSA							SSA will give back results to E&TC	
Workshops	See service provider document								Effective control is essential
Travelling	At AA rates to be paid for all travelling								

1. Up and running districts must at least have an education and training coordinator who will manage the unit. All E&T requirements must be communicated with the provincial coordinator who will then communicate with SSA.
2. All E&T requirements must be communicated three weeks in advance to avoid hiccups and disappointments
3. After all the registers and reports have been submitted, the province must invoice the district for their portion.
4. The costs for the first exam and the first practical assessment must be covered by the affiliate as both are covered within the course fee.
5. The second exam (re-write) and the second practical assessment must be covered by the candidate as indicated above.

6. Todswim & LTS candidates usually write on the last day of the course. If written at a later stage affiliate would have to pay an invigilator R200 a session.
7. Level 1 coaching exams are written 2 weeks after the course as would be arranged by the affiliate. Invigilation costs must be covered by affiliate at R300 a session.
8. If there is a need for an oral exam, it must be discussed with the federation. If it is a re-write, the candidate will have to cover the costs, which will be at R150 for all courses.
9. Re-printing of any certificate that has not expired is R150; SSA will not print an expired certificate.
10. Upgrades will cost R200 and the affiliate retains R50 and SSA will invoice the affiliate R150
